Metabolix to Conduct a Webcast of Its First Quarter Fiscal Year 2013 Earnings Call

CAMBRIDGE, Mass.--(BUSINESS WIRE)-- Metabolix, Inc. (NASDAQ: MBLX), an innovation-driven bioscience company delivering sustainable solutions to the plastics, chemicals and energy industries, announced today that it will be releasing its first quarter fiscal year 2013 financial results after the market close on Wednesday, May 8, 2013. The full text of the earnings release will also be available on the Company's website at www.metabolix.com.

Richard Eno, the Company's president and chief executive officer, Joseph Hill, chief financial officer, and Oliver Peoples, co-founder and chief scientific officer, will host a conference call on the same day at 4:30 p.m. (ET) to discuss the results of the first quarter ended March 31, 2013. The Company will also provide an update on the business and answer questions from the investment community.

A live webcast of the call with slides can be accessed through the "[Investors](#)" section of the Company's website at www.metabolix.com. To participate in the call, dial toll-free (877) 709-8155 or (201) 689-8881 (international). Interested parties unable to participate in the live call may access an archived version of the webcast on the Company's website. To listen to a telephonic replay of the conference call, dial toll-free (877) 660-6853 or (201) 612-7415 (international) and enter pass code 412243. The replay will be available beginning at 7:30 p.m. (ET) on Wednesday, May 8, 2013 and will last through 11:59 p.m. (ET) on May 22, 2013. In addition, the webcast will be archived on the Company's website in the investor relations section.

About Metabolix

Metabolix, Inc. is an innovation-driven bioscience company delivering sustainable solutions to the plastics, chemicals and energy industries. Metabolix is developing and commercializing a family of high-performance biopolymers targeted to the markets for film and bag applications, performance additives and functional biodegradation. Metabolix's biobased chemicals platform utilizes its novel "FAST" recovery process to enable the production of cost-effective, "drop-in" replacements for petroleum-based industrial chemicals. Metabolix is also developing a platform for co-producing plastics, chemicals and energy from crops. Metabolix has established an industry-leading intellectual property portfolio that, together with its knowledge of advanced industrial practice, provides a foundation for industry collaborations.
