Metabolix to Conduct a Webcast of Its Fourth Quarter 2009 Earnings Call

CAMBRIDGE, Mass., Feb 19, 2010 (BUSINESS WIRE) -- Metabolix, Inc. (NASDAQ: MBLX), a bioscience company focused on developing clean, sustainable solutions for plastics, chemicals and energy, announced today that it will be releasing its fourth quarter and full year fiscal 2009 financial results after the market close on Wednesday, March 10, 2010. The full text of the earnings release will also be available on the Company's website at www.metabolix.com.

Richard Eno, the Company's President and CEO, and Joseph Hill, CFO, will host a conference call on the same day at 4:30 p.m. (Eastern) to discuss the results of the fourth fiscal quarter ended December 31, 2009, and answer questions from the investor audience. To participate, dial toll-free 1-800-967-7135 or 1-719-457-2604 (international). The passcode is 4748905. The conference call will also be webcast and can be accessed from the Company's website at www.metabolix.com in the investor relations section.

To listen to a telephonic replay of the conference call, dial toll-free 1-888-203-1112 or 1-719-457-0820 (international) and enter passcode 4748905. The replay will be available beginning at 7:30 p.m. (Eastern) on Wednesday, March 10, 2009 and will last through 11:59 PM (Eastern) March 24, 2010. In addition, the webcast will be archived on the Company's website in the investor relations section.

About Metabolix

Founded in 1992, Metabolix, Inc. is an innovation-driven bioscience company focused on providing sustainable solutions for the world's needs for plastics, chemicals and energy. The Company is taking a systems approach, from gene to end product, integrating sophisticated biotechnology with advanced industrial practice. Metabolix is now developing and commercializing Mirel(TM), a family of high performance bioplastics which are biobased and biodegradable alternatives to many petroleum-based plastics. Metabolix is also developing a proprietary platform technology for co-producing plastics, chemicals and energy, from crops such as switchgrass, oilseeds and sugarcane.
