## **Metabolix to Present at 6th Annual Piper Jaffray Clean Technology & Renewables Conference**

CAMBRIDGE, Mass.--(BUSINESS WIRE)-- Metabolix, Inc. (NASDAQ: MBLX), a bioscience company focused on developing clean, sustainable solutions for plastics, chemicals and energy, announced today that management will be presenting at Piper Jaffray's Sixth Annual Clean Technology & Renewables Conference at 12:30 pm ET in New York City on January 12, 2011. Management will provide an update on commercial activity, manufacturing, new technologies, and plans for the business. A live webcast of the company's presentation will be accessible on the Company's website in the Investor Relations section at <http://ir.metabolix.com/index.cfm>. Interested parties should contact their Piper Jaffray representative for more information.

### **About Metabolix**

Founded in 1992, Metabolix, Inc. is an innovation-driven bioscience company focused on providing sustainable solutions for the world's needs for plastics, chemicals and energy. The Company is taking a systems approach, from gene to end product, integrating sophisticated biotechnology with advanced industrial practice. Metabolix is now developing and commercializing Mirel™, a family of high performance bioplastics which are biobased and biodegradable alternatives to many petroleum-based plastics. Metabolix is also developing a proprietary platform technology for co-producing plastics, chemicals and energy, from crops such as switchgrass, oilseeds and sugarcane.
