Metabolix to Present at 11th Jefferies Global Clean Technology Conference

CAMBRIDGE, Mass.--(BUSINESS WIRE)-- Metabolix, Inc. (NASDAQ: MBLX), a bioscience company focused on developing clean, sustainable solutions for plastics, chemicals and energy, announced today that management will be presenting at the 11th Jefferies Global Clean Technology Conference at 2:30 pm ET on Thursday, February 24th, 2011 in New York City. The Company will deliver a 25-minute formal presentation followed by a breakout session to answer questions from the institutional investment community. Interested parties should contact their Jefferies sales representative for more information.

About Metabolix

Founded in 1992, Metabolix, Inc. is an innovation-driven bioscience company focused on providing sustainable solutions for the world's needs for plastics, chemicals and energy. The Company is taking a systems approach, from gene to end product, integrating sophisticated biotechnology with advanced industrial practice. Metabolix is now developing and commercializing Mirel™, a family of high performance bioplastics which are biobased and biodegradable alternatives to many petroleum-based plastics. Metabolix is also developing a proprietary platform technology for co-producing plastics, chemicals and energy, from crops such as switchgrass, oilseeds and sugarcane.
