

## **Yield10 Bioscience, Inc. to Present at the Ladenburg Thalmann Technology Expo 2019 on May 30, 2019**

May 28, 2019

WOBURN, Mass., May 28, 2019 (GLOBE NEWSWIRE) -- Yield10 Bioscience, Inc. (NASDAQ:YTEN), an agricultural bioscience company which uses its "Trait Factory" to develop high value seed traits for the agriculture and food industries, today announced its CEO, Oliver Peoples, Ph.D., will present at the Ladenburg Thalmann Technology Expo 2019 on Thursday, May 30, 2019 at 4:30 p.m. EDT. The conference will be held at Convene, 101 Park Avenue in New York City.

Investors interested in attending the presentation or setting up one-on-one meetings with the company should register via <https://conference.ladenburg.com/>. A live webcast as well as a replay of this investor presentation will be available on the Company's website at [www.yield10bio.com](http://www.yield10bio.com).

### **About Yield10 Bioscience**

Yield10 Bioscience, Inc. is an agricultural bioscience company which uses its "Trait Factory" to develop high value seed traits for the agriculture and food industries to achieve step-change improvements in crop yield to enhance global food security. Yield10 has an extensive track record of innovation based around optimizing the flow of carbon in living systems. The "Trait Factory" has two components: the "GRAIN" computational modeling platform, which is used to identify specific gene changes designed to improve crop performance, and the deployment of those changes into crops using genome-editing or traditional agricultural biotechnology approaches. The purpose of the "Trait Factory" is to engineer precise alterations to gene activity and the flow of carbon in plants to produce higher yields with lower inputs of land, water or fertilizer. Yield10 is advancing several yield traits it has developed in crops such as canola, soybean, rice, wheat and corn. Yield10 is headquartered in Woburn, MA and has an Oilseeds Center of Excellence in Saskatoon, Canada.
