**PROXY STATEMENT
For the Annual Meeting of Stockholders
To Be Held on May 30, 2008**

April 18, 2008

Proxies in the form enclosed with this Proxy Statement are solicited by the Board of Directors of Metabolix, Inc., a Delaware corporation ("Metabolix" or the "Company"), for use at the Annual Meeting of Stockholders of Metabolix to be held on Friday, May 30, 2008, at 9:30 a.m., Eastern time, or at any adjournments or postponements thereof (the "Annual Meeting") at the Meridien Hotel located at 20 Sidney Street, Cambridge, MA 02139. An Annual Report to Stockholders, containing financial statements for the fiscal year ended December 31, 2007, is being mailed together with this proxy statement to all stockholders entitled to vote at the Annual Meeting. This Proxy Statement and the form of proxy were first sent or given to stockholders on or about April 23, 2008.

The purpose of the Annual Meeting is to elect two Class II Directors for three-year terms. Only stockholders of record at the close of business on April 7, 2008 (the "Record Date") will be entitled to receive notice of and to vote at the Annual Meeting. As of the Record Date, 22,649,747 shares of common stock, \$0.01 par value per share, of the Company (the "Common Stock") were issued, outstanding and entitled to vote.

The holders of Common Stock are entitled to one vote per share on any proposal presented at the Annual Meeting. Stockholders may vote in person or by proxy. Stockholders may vote by proxy by completing, signing, dating and returning the accompanying proxy card in the postage-prepaid envelope enclosed for that purpose in accordance with the instructions listed on the proxy card. Execution of a proxy will not in any way affect a stockholder's right to attend the Annual Meeting and vote in person. Any proxy given pursuant to this solicitation may be revoked by the person giving it any time before the taking of the vote at the Annual Meeting. Proxies may be revoked by (1) filing with the Secretary of Metabolix, before the taking of the vote at the Annual Meeting, a written notice of revocation bearing a later date than the proxy, (2) duly executing a later-dated proxy relating to the same shares and delivering it to the Secretary of Metabolix, in accordance with the instructions listed on the proxy card, before the taking of the vote at the Annual Meeting, or (3) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Any written notice of revocation or subsequent proxy should be sent so as to be delivered to Metabolix, Inc., 21 Erie Street, Cambridge, MA 02139, Attention: Secretary, before the taking of the vote at the Annual Meeting.

Each of the persons named as attorneys-in-fact in the proxies is a director and/or officer of Metabolix. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted as stated below. Any stockholder submitting a proxy has the right to withhold authority to vote for any individual nominee to the Board by checking the box "For All Except" and marking the nominee's name in the space provided on the proxy card. When a choice has been specified on the proxy with respect to a matter, the shares represented by the proxy will be voted in accordance with the specifications, and will be voted FOR if no specification is indicated, as permitted by applicable regulations and by Metabolix corporate documents.

The representation in person or by proxy of at least a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker "non-votes" are counted as present or represented for purposes of determining the presence or absence of a quorum for the Annual Meeting. A "non-vote" occurs when a nominee holding shares for a beneficial owner votes on one proposal but does not vote on another proposal because, with respect to such other proposal, the nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

Election of Directors. Directors are elected by a plurality of the votes cast, in person or by proxy, at the Annual Meeting. The two nominees who receive the highest number of affirmative votes of the shares present or represented and voting on the election of Directors at the Annual Meeting will be elected to the Board of Directors. Shares present or represented and not so marked as to withhold authority to vote for a particular nominee will be voted in favor of a particular nominee and will be counted toward such nominee's achievement of a plurality. Shares present at the meeting or represented by proxy where the stockholder properly withholds authority to vote for such nominee in accordance with the proxy instructions will not be counted toward such nominee's achievement of plurality.

The persons named as attorneys-in-fact in the proxies, Richard P. Eno and Joseph Hill, were selected by the Board of Directors and are officers of the Company. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted by such persons at the Annual Meeting. Where a choice has been specified on the proxy with respect to the election of Directors, the shares represented by the proxy will be voted in accordance with the specifications. If no such specifications are indicated, such proxies will be voted FOR election of the Director nominees.

Other Matters. The Board knows of no other matters to be presented at the Annual Meeting. If any other matter should be presented at the Annual Meeting upon which a vote properly may be taken, the affirmative vote of the majority of shares present, in person or represented by proxy, and voting on that matter is required for approval. Shares voted to abstain are included in the number of shares present or represented and voting on each matter. Shares subject to broker "non-votes" are considered to be not entitled to vote for the particular matter and have the practical effect of reducing the number of affirmative votes required to achieve a majority for such matter by reducing the total number of shares from which the majority is calculated.

Sarah P. Cecil, Metabolix's Secretary and General Counsel, will serve as the Inspector of Elections and will count all votes and ballots.

The Board of Directors has fixed the number of Directors, as of the date of the Annual Meeting, at nine. The Company's amended and restated certificate of incorporation divides the Board of Directors into three classes. One class is elected each year for a term of three years and until their successors have been duly elected and qualified, or until their earlier death, resignation or removal. The Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, has nominated Jay Kouba, Ph.D. and Oliver Peoples, Ph.D., and recommended that each be elected to the Board of Directors as a class II Director, each to hold office until the annual meeting of stockholders to be held in the year 2011 and until his successor has been duly elected and qualified or until his earlier death, resignation or removal. Muller, Matthew Strobeck, Ph.D., and Robert L. Van Nostrand), whose terms expire at the annual meeting of stockholders to be held in 2010. Dr. Kouba serves as the Chairman of the Board of Directors.

The Board of Directors knows of no reason why any of the nominees would be unable or unwilling to serve, but if any nominee should for any reason be unable or unwilling to serve, the proxies will be voted for the election of such other person for the office of Director as the Board of Directors may recommend in the place of such nominee. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below.

("NASDAQ") and the Securities and Exchange Commission ("SEC"), including Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Furthermore, the Board of Directors has determined that each member of each of the committees of the Board of Directors is independent within the meaning of the Director independence standards of NASDAQ and the SEC, and that each member of the Audit Committee meets the heightened director independence standards for audit committee members of the SEC.

Policies Governing Director Nominations

Director Qualifications

The Nominating and Corporate Governance Committee of the Board of Directors is responsible for reviewing, from time to time, the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the current make-up of the Board of Directors and selecting or recommending to the Board of Directors, nominees for election as Directors. This assessment includes consideration of the following minimum qualifications that the Nominating and Corporate Governance Committee believes must be met by all Directors:

- Directors must be of high ethical character and share the values of the Company as reflected in the Company's Code of Business Conduct and Ethics (the "Code of Business Conduct");
- Directors must have reputations, both personal and professional, consistent with the image and reputation of the Company;
- Directors must have the ability to exercise sound business judgment;
- Directors must have substantial business or professional experience and be able to offer advice and guidance to the Company's management based on that experience; and
- A Director must have (at minimum) a bachelor's degree or equivalent degree from an accredited college or university.

The Nominating and Corporate Governance Committee also considers numerous other qualities, skills and characteristics when evaluating Director nominees, such as:

- An understanding of and experience in the biotechnology, plastics or chemicals industries;
- An understanding of and experience in accounting oversight and governance, finance and marketing; and
- Leadership experience with public companies or other significant organizations.

These factors and others are considered useful by the Board of Directors, and are reviewed in the context of an assessment of the perceived needs of the Board of Directors at a particular point in time.

Process for Identifying and Evaluating Director Nominees

The Board of Directors is responsible for selecting and nominating nominees for election as Directors but delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board of Directors or members of management will be requested to take part in the process as appropriate.

Generally, the Nominating and Corporate Governance Committee identifies candidates for Director nominees in consultation with management, through the use of search firms or other advisers, through the recommendations submitted by stockholders or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for Director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, questionnaires, background checks, or any other means that the Nominating and Corporate Governance Committee deems to be helpful in the evaluation process. The Nominating and Corporate Governance Committee discusses and evaluates the qualities and skills of each candidate, taking into account the overall composition and needs of the Board. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board's approval as Director nominees for election to the Board. The Nominating and Corporate Governance Committee also recommends candidates for the Board's appointment to the committees of the Board.

Procedures for Recommendation of Nominees by Stockholders

The Nominating and Corporate Governance Committee will consider Director candidates who are recommended by the stockholders of the Company. Stockholders, in submitting recommendations to the Nominating and Corporate Governance Committee for Director candidates, shall follow the following procedures.

The Nominating and Corporate Governance Committee must receive any such recommendation for nomination not later than the close of business on the 90th day nor earlier than the close of business on the 120th day prior to the first anniversary of the date that the proxy statement was delivered to stockholders in connection with the preceding year's Annual Meeting.

- All other information relating to the recommended candidate that would be required to be disclosed in solicitations of proxies for the election of Directors, or is otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (including the recommended candidate's written consent to being named in the

proxy statement as a nominee and to serving as a Director if approved by the Board and elected); and

- A written statement from the stockholder making the recommendation stating why such recommended candidate would be able to fulfill the duties of a Director.

Nominations must be sent to the attention of the Secretary of the Company by one of the two methods listed below:

Cambridge, MA 02139
Attn: Secretary

Nominations not made in accordance with the foregoing policy shall be disregarded by the Nominating and Corporate Governance Committee and votes cast for such nominees shall not be counted.

A copy of the Audit Committee Charter is attached as Appendix A and is available on our website at <http://www.metabolix.com> under "Investor Relations-Corporate Governance-Essential Governance Documents." The Board of Directors has determined that the members of the Audit Committee meet the independence requirements set forth in Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended, and the applicable rules of the National Association of Securities Dealers, Inc. and that Mr. Van Nostrand qualifies as an "Audit Committee financial expert" under the rules of the SEC. The Audit Committee oversees the accounting and financial reporting processes of the Company and its subsidiaries and the audits of the financial statements of the Company. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls.

In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed with both the management of the Company and PricewaterhouseCoopers LLP, the Company's independent registered public accounting firm, the audited financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2007, including a discussion of the acceptability of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Audit Committee also reviewed the Company's quarterly financial statements for the first three fiscal quarters during the fiscal year ended December 31, 2007 and discussed them with both the management of the Company and PricewaterhouseCoopers LLP prior to including such interim financial statements in the Company's quarterly reports on Form 10-Q and its other filings with the SEC.

The Audit Committee reviewed with PricewaterhouseCoopers LLP, which is responsible for expressing an opinion on the conformity of those audited financial statements in accordance with generally accepted accounting principles, their judgments as to the acceptability of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee by Statement on Auditing Standards No. 61, as amended by Statement on Auditing Standards No. 90 ("Communication With Audit Committees"), other standards of the Public Company Accounting Oversight Board, rules of the SEC and other applicable regulations. In addition, the Audit Committee has received from PricewaterhouseCoopers LLP the written disclosures and the letter required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, as modified or supplemented, has discussed with PricewaterhouseCoopers LLP their independence from management and the Company, and has considered the compatibility with PricewaterhouseCoopers LLP's independence as auditors of any non-audit services performed for the Company by PricewaterhouseCoopers LLP.

The Audit Committee discussed with PricewaterhouseCoopers LLP the overall scope and plans for their audit. The Audit Committee met with PricewaterhouseCoopers LLP, with and without management present, to discuss the results of their examinations and their evaluations of the Company's financial reporting.

The Audit Committee has also evaluated the performance of PricewaterhouseCoopers LLP, including, among other things, the amount of fees paid to PricewaterhouseCoopers LLP for audit and non-audit services during the fiscal year ended December 31, 2007. Information about PricewaterhouseCoopers LLP's fees for the fiscal year ended December 31, 2007 is discussed below in this Proxy Statement under "Independent Registered Public Accountants."

The Audit Committee met six times during fiscal year 2007. In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2007 and filed with the SEC, and the Board of Directors approved such inclusion.

Respectfully submitted by the Audit Committee,

Robert L. Van Nostrand, Chairman
Edward M. Muller
Jay Kouba, Ph.D. (until May 3, 2007)
Matthew Strobeck, Ph.D. (since May 17, 2007)

EXECUTIVE AND DIRECTOR COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

This Compensation Discussion and Analysis explains our compensation philosophy, policies and practices with respect to each person who served as principal executive officer or principal financial officer of the Company during 2007 and the other three most highly compensated executive officers, who are collectively referred to as the "named executive officers." Jay Kouba, Ph.D., served as our Chief Executive Officer from May 3, 2007 until March 17, 2008, replacing James J. Barber, Ph.D. Thomas G. Auchincloss, Jr. served as our Chief Financial Officer until August 10, 2007, when he became Head of Business Development—New Technologies, of the Company. Johan van Walsem, formerly our Vice President, Manufacturing, Development and Operations, Oliver P. Peoples, Ph.D., our Vice President, Research and Chief Scientific Officer, and Robert C. Findlen, our Vice President, Marketing, are the other three named executive officers. Mr. Auchincloss and Mr. van Walsem terminated their employment with the Company in April 2008.

The year 2007 was our first full year as a public company. During 2007, for the first time, we implemented a formal incentive bonus program for executives. In 2007, we made significant progress toward our company goals. Our executive compensation reflects that progress, with executive bonuses based on corporate achievement assessed at 89% of target and individual achievement levels ranging from 80% to 120% of target. In 2007, our Compensation Committee engaged in a systematic review of our executive compensation practices in relation to a benchmark peer group. As a result of this analysis, certain elements of our executive compensation program have been modified. During 2007, all of our named executive officers other than our Chief Executive Officer received equal base salary, bonus opportunities and equity awards, in an effort to promote teamwork among the executive group. For 2008, instead of compensating all named executive officers other than our Chief Executive Officer equally, we have moved to a differentiated structure based on an assessment of each executive's contributions and importance to the Company together with market referencing.

We believe that executive compensation should be sufficient to attract and retain persons of exceptional quality and to provide effective incentives to motivate and reward executives for achieving

the strategic, financial and operational goals essential to our long-term success and growth in stockholder value. We have defined four objectives for our employee compensation system:

- to create a performance-driven culture;
- to link financial rewards with performance results and achievement;
- to provide competitive offers which attract and retain top performers; and
- to share in Company success.

The Compensation Committee applies these same principles in determining compensation for our executives. A large portion of executive pay is at risk, which reinforces our performance-driven culture.

We provide what we believe is a competitive total compensation package to our executive management team through a combination of base salary, cash incentives, long-term equity incentive compensation, and a broad-based benefits program. We believe that compensation is part of performance management. Performance management begins with setting objectives that represent a mutual agreement on expectations of performance. The compensation system defines the reward for achievement. The third component of performance management is performance assessment, which links actual performance to reward.

Our Compensation Committee

The Compensation Committee of our Board of Directors oversees the development of our compensation plans and policies for executive officers. Our Compensation Committee has been delegated the authority to determine all forms of compensation to be granted to our executive officers in furtherance of our compensation objectives. The Compensation Committee is composed entirely of non-employee Directors. See "The Board of Directors and its Committees—Compensation Committee." In making its decisions regarding executive compensation, the Committee considers recommendations from our Chief Executive Officer, but meets outside the presence of our Chief Executive Officer when making final decisions and when considering our Chief Executive Officer's compensation. During 2007, the Committee also considered input from Watson Wyatt, an independent compensation consultant.

In determining the amount and mix of compensation elements, the Compensation Committee relies upon its judgment about each individual executive officer, and not on rigid formulas, while taking into account the following factors:

- the scope and strategic impact of the executive officer's responsibilities;
- the performance and experience of each individual; and
- for each executive officer other than our Chief Executive Officer, the evaluations and recommendations of our Chief Executive Officer.

There are three key elements to our process for setting executive compensation: (i) market referencing; (ii) internal equity; and (iii) business goals and performance considerations.

Market Referencing

We base our compensation decisions in part on a review of relevant market information. The principle of market referencing means that our compensation and benefits programs are benchmarked against programs available to employees in comparable roles at peer companies. In determining executive compensation for 2007, the Compensation Committee considered information regarding compensation at other companies, including the Radford Life Sciences Survey for 2006, but did not use a specific benchmark comparison group for analysis.

The Compensation Committee engaged the services of Watson Wyatt to help collect market information for 2008 executive compensation decisions, and to review our policies and procedures with respect to executive compensation. As an independent consultant to the Compensation Committee, Watson Wyatt assisted in defining a peer group of companies and then collecting relevant market data from these companies to allow the Compensation Committee to compare base salary, incentive bonus and equity awards to those of our peers.

Watson Wyatt worked with the Compensation Committee to determine an appropriate peer comparison group. The Compensation Committee recommended several companies to include in the peer group, selecting those considered to be appropriate models for operation and future growth, and supplemented the initial selection with additional companies that also fit Metabolix's profile. In choosing this benchmark group, we considered the following factors: market capitalization, industry, geographic location, revenue and revenue growth, and stage of development. Because there are few competitors in our industry that are also comparable to the Company in size and complexity, we looked at other companies in the biotechnology industry and companies in the alternative energy and clean technology fields for comparison. These are industries where technology plays a key role in the companies' corporate growth. The peer group analysis focused primarily on market capitalization and number of employees, since early-stage companies like ours do not generate consistent revenues or earnings.

In determining 2008 executive compensation, the Compensation Committee selected the following peer group of 11 benchmark companies for comparison purposes:

- American Superconductor Corp.
- Dyadic International Inc.
- Evergreen Energy Inc.
- Evergreen Solar Inc.
- Fuelcell Energy Inc.
- Helicos BioSciences Corp.
- Insulet Corp.
- Senomyx Inc.
- Sirtris Pharmaceuticals Inc.
- Symyx Technologies Inc.
- Verenum Corp.

We expect to review our choice of benchmark companies from time to time, as our Company grows and the individual companies in the benchmark group change.

Internal Equity

A second factor in determining executive compensation is internal equity. The Compensation Committee seeks to ensure that the compensation of individual executives is fair and appropriate relative to that of other Company executives, in relation to each executive's duties and responsibilities and his or her contribution to the Company's success. For 2007, base salary levels, bonus targets and equity grant levels were the same for all named executive officers, other than our Chief Executive Officer. The Compensation Committee's intention was to foster teamwork the by having all executives share equally in the Company's success. As the Company has matured, and based in part on the benchmarking data provided by Watson Wyatt, the Compensation Committee is moving toward

increased differentiation in executive pay. Base salaries, bonus opportunities, and equity grants in 2008 will reflect the Committee's evaluation of each executive's individual role and contributions, taking into consideration (i) market value of the position, as indicated by the peer group analysis, (ii) individual performance, and (iii) the importance of the executive to the business, including a determination of the difficulty of replacing the executive.

Performance Considerations and Business Goals

As a company in a high growth business environment, we place significant emphasis on performance-based compensation programs, which make payments when certain Company and individual goals are achieved, and equity incentives, which increase in value as stockholder value is created. We award our executives compensation as recognition for how well they perform as a team in achieving our business goals, as well as their achievement of their individual goals. In order to determine whether our executives achieved individual and corporate goals, we conduct an annual performance review. The review process is designed to guide performance discussions, set an executive's performance objectives, and communicate annual achievement at the individual performance level. As part of the executive performance evaluation process, our Chief Executive Officer submits to the Compensation Committee quarterly and annual evaluations of Company performance against the corporate goals, based primarily (but not exclusively) upon agreed indicators of performance. These achievement indicators heavily influence the executive's compensation. At the end of each year, our Chief Executive Officer reviews each executive's performance and provides a qualitative and a numerical assessment of performance to the executive and to the Compensation Committee. The Compensation Committee makes the final determination of corporate and individual performance for purposes of compensation decisions, based in part on the recommendations of our Chief Executive Officer. The Compensation Committee also reviews the Chief Executive Officer's performance.

Compensation Components and Pay Mix

Executive compensation currently includes the following elements:

- Base salary;
- Short-term incentive compensation, consisting of an annual performance cash bonus program;
- Long-term incentive compensation, consisting of stock option grants under our 2006 Stock Option and Incentive Plan; and
- A broad-based benefits program.

We intend to manage executive compensation by comparing total compensation (base salary, cash bonus, and equity incentives) to applicable benchmarks. Within total compensation we expect that, on average, base salary will generally be lower, and incentive compensation higher, than that of our peers. Our compensation strategy is necessarily tied to our stage of development. Accordingly, the specific direction, emphasis and components of our executive compensation program continue to evolve in parallel with the evolution of our business strategy. Due to the early stage of our business, we have in the past provided a greater portion of total compensation to our executives through our stock compensation plans than through cash-based compensation. We expect that now that we have become a public company, with more predictable financial resources, our executive compensation program may become more weighted towards performance-based cash compensation than towards stock options.

We believe that, overall, total compensation for our executives is competitive with the market and reinforces our compensation philosophy of incenting long-term value creation. Total base salaries for 2007 for our named executive officers (other than the Chief Executive Officer) as a group were approximately at the 25th percentile of the applicable range for our benchmark peer group, and our Chief Executive Officer's base salary was well below the 25th percentile. However, bonus targets were

above average, resulting in total cash compensation ranging from the 50th to the 75th percentile. Inclusion of equity incentives resulted in total compensation at approximately the 75th percentile of the benchmark peer group. This mix of compensation elements is highly leveraged and ensures a strong pay-for-performance alignment. We believe this is appropriate and typical for an early-stage high-growth company like Metabolix.

For 2007, the largest part of our Chief Executive Officer's compensation (80%) was in the form of stock options, whereas our peers, on average, deliver approximately two-thirds (67%) of CEO compensation as equity. This was primarily due to below-market cash compensation paid to our interim Chief Executive Officer in 2007. Our other executive officers also received a higher portion of their compensation in the form of equity (approximately 61%) compared to the peer average (52%).

Base Salary

We determine our executive salaries based on job responsibilities, individual experience, prior salary history, and comparable competitive market compensation for similar positions within the biotechnology and alternative energy/clean technology industries. We use benchmarks in order to make sure that we are offering competitive salaries that will enable us to attract qualified candidates from other companies and to retain our executive talent.

Cash Incentives

We did not pay cash bonuses prior to 2006. During 2007, for the first time, the Compensation Committee adopted a formal cash incentive performance bonus program for the named executive officers other than our Chief Executive Officer, with the expectation that a significant portion of executive cash compensation going forward will be performance-based. Incentive bonus awards under this program are made pursuant to our 2006 Stock Option and Incentive Plan.

Long-Term Incentives

We believe that equity ownership in the Company is important to provide our executive officers with long-term incentives to build value for our stockholders. The Compensation Committee's general policy is to grant stock options at regularly scheduled meetings, with an exercise price per share equal to the closing price of our Common Stock on the date of grant. Each executive officer is initially provided with an option grant when he or she joins the Company, based upon his or her position with us, his or her relevant prior experience, and benchmarking data. These initial grants generally vest in quarterly installments over four years from the commencement of employment. We spread the vesting of our options over four years to compensate executives for their contribution over a period of time and to give our executives an incentive to remain with the Company.

In addition to the initial option grants, our Compensation Committee grants additional options to retain our executives, to promote the achievement of corporate goals, and to ensure that executives are appropriately aligned to lead the Company for future growth. As the Company continues to evolve, our Compensation Committee and Board of Directors may also consider in the future awarding additional or alternative forms of equity incentives, such as grants of restricted stock, stock appreciation rights, and other performance-based awards.

Benefits

Consistent with our compensation philosophy to attract and retain talent, we provide employee benefits for all employees, including executive officers, which include health and dental benefits, life insurance benefits, long and short-term disability coverage, and a 401(k) savings plan. Under the 401(k) savings plan, we provide a matching contribution in the form of Metabolix common stock. For the first 3% of each employee's contribution, we match dollar for dollar, and on the second 3% we match \$.50

to the dollar. We believe these benefits are competitive with those offered by other companies and specifically those companies with which we compete for employees. We have no structured perquisite benefits for any executive officers, including the named executive officers, and we currently do not provide any deferred compensation programs or pensions to any executive officer, including the named executive officers. Certain of our executives have relocated to the area of our headquarters. We reimbursed these executives for normal moving expenses in accordance with industry standards.

2007 Compensation for Our Named Executive Officers

Chief Executive Officer Compensation

Jay Kouba, our Chairman of the Board, became Chief Executive Officer on May 3, 2007, replacing James J. Barber. Dr. Kouba agreed to serve as the Company's interim Chief Executive Officer while the Company conducted a search for a new Chief Executive Officer. Dr. Kouba agreed to work for below-market compensation and with very little fixed compensation largely due to the early stage of the Company. The Compensation Committee and Dr. Kouba also agreed that a large portion of Dr. Kouba's compensation should be in the form of equity.

Dr. Kouba's base salary was set at \$30,000 per year, the same amount as the annual fee payable to each non-employee member of the Board of Directors. Dr. Kouba was granted stock options to acquire 83,312 shares of Common Stock, vesting in equal increments of 20,828 shares on each of August 1, 2007, November 1, 2007, February 1, 2008 and May 1, 2008. A portion of this option was granted in lieu of reimbursement for Dr. Kouba's housing while in Cambridge, Massachusetts. In addition, as a performance incentive Dr. Kouba was granted an option to acquire 20,000 shares that would vest upon accomplishment of the goals of his bonus plan. Because of the short-term nature of Dr. Kouba's employment agreement, the Committee agreed that all stock options would be exercisable, to the extent vested, for ten years after the date of grant, regardless of his earlier termination of employment. The exercise price of all stock options was equal to the fair market value of the Company's common stock on the grant date.

In January 2008, the Compensation Committee determined that Dr. Kouba had done an outstanding job as interim Chief Executive Officer, and in recognition of his accomplishments, the 20,000 share performance stock option was fully vested.

Other Named Executive Officers

Base salaries in effect at the beginning of 2007 for our named executive officers other than Dr. Kouba were set during 2006. After Dr. Kouba became President and Chief Executive Officer, he began a process of setting corporate goals for the remainder of 2007. On May 17, 2007, the Compensation Committee approved 2007 executive compensation for the named executive officers other than the Chief Executive Officer, including base salary, a performance-based incentive bonus program, and stock options, as follows:

Named Executive Officer	Base Salary in effect at 1/1/07	Base Salary effective 5/17/07	Performance- Based Bonus (target)	Stock Options
Johan van Walsem	\$ 200,000	\$ 220,000	\$ 154,000	40,000
Oliver P. Peoples	\$ 200,000	\$ 220,000	\$ 154,000	40,000
Robert C. Findlen	\$ 200,000	\$ 220,000	\$ 154,000	40,000
Thomas G. Auchincloss, Jr.	\$ 200,000	\$ 220,000	\$ 154,000	40,000

The stock options granted to the named executive officers each had an exercise price equal to \$23.99 per share, which was the fair market value per share of the Company's common stock on the

date of grant, and vest in 16 equal quarterly installments over a four year period from the date of grant.

The 2007 bonus targets for Mr. van Walsem, Dr. Peoples, Mr. Findlen, and Mr. Auchincloss were set at 70% of base salary, but actual bonuses could range from 0% to 100% of base salary, based on the Compensation Committee's assessment of achievement of individual and Company goals.

The Compensation Committee believed that it was important to keep compensation equal among the executives in order to promote teamwork at the senior level. Although there was no formal benchmarking, the Committee believed that the salary and option grant amounts were consistent with those provided by comparable companies and the ranges indicated in the Radford Life Sciences Survey for 2006, and that if all goals were met and the full bonus amounts paid, the total compensation, including the performance bonus, would be high relative to those at comparable companies. The Committee set this compensation level to attract and retain executive talent, and with a large performance bonus element providing the foundation to build upon for future success of the Company.

In 2007, the Compensation Committee adopted a formal cash incentive bonus plan for the named executive officers other than the Chief Executive Officer. Corporate goals were approved by the Board of Directors in June 2007, and individual executive goals were agreed upon shortly thereafter. For 2007, the corporate objectives were to:

- develop Mirel™ purchase commitments;
- transfer primary resin production technology for the Archer Daniels Midland commercial manufacturing facility;
- develop systems and processes to ensure Mirel customer fulfillment;
- enhance the margin capacity of the commercial manufacturing facility;
- develop the Metabolix corporate strategy;
- define and validate a business option for the production of polymers in plants;
- define and validate a chemicals business option;
- develop a discrete portfolio of new business options;
- create a positive perception for Metabolix among thought leaders; and
- develop effective and scalable corporate processes and systems.

After the end of the 2007 fiscal year, taking into account the Chief Executive Officer's evaluation, the Compensation Committee scored Company performance on each of the 2007 corporate objectives, based upon the evidence provided by the Chief Executive Officer and the Committee's own judgment. For this purpose, all objectives were weighted equally, although the Committee had discretion to apply its subjective judgment to the final scoring. Based on this analysis, the Compensation Committee determined that, overall, the Company's goal achievement for 2007 was 89% of target.

Similarly, the Compensation Committee scored performance on each executive's individual objectives based upon information provided by the Chief Executive Officer and the Committee's subjective judgment. Individual performance ratings were based on the sum of these scores and ranged from 80% to 120%, as a percentage of the total target.

The named executive officer bonuses for 2007 performance were then determined by the Committee based 50% on corporate performance and 50% on individual performance, applied to the

target bonus of 70% of salary. Using this methodology, the Committee awarded cash performance bonuses for 2007 performance to named executive officers in the following amounts:

Named Executive Officer	Target Bonus	2007 Bonus Awarded
Johan van Walsem	\$ 154,000	\$ 160,930
Oliver P. Peoples	\$ 154,000	\$ 153,230
Robert C. Findlen	\$ 154,000	\$ 130,130
Thomas G. Auchincloss, Jr.	\$ 154,000	\$ 91,401

Mr. Auchincloss's bonus was pro-rated based on the portion of the year during which he served as Chief Financial Officer of the Company.

Under the bonus plan, each executive could elect, on or before the bonus award date, to accept any performance bonus either (i) 100% in the form of cash, or (ii) 50% in cash and 50% in the form of fully exercisable stock options, calculated using the Black Scholes valuation method. No executives elected to receive any portion of their bonus in the form of options.

Severance Compensation and Termination Protection

We entered into employment agreements with Mr. van Walsem, Dr. Peoples, and Mr. Findlen. These agreements provide for severance compensation to be paid if the executives are terminated under certain conditions, such as a change in control of the Company or a termination without cause by us or a voluntary termination by the executive for good reason, each as is defined in the agreements. We also entered into an employment agreement with Dr. Kouba in 2007 in connection with his services as Chief Executive Officer. These agreements are described in more detail elsewhere in this proxy statement, in the section titled "Executive Employment Agreements." In negotiating these agreements, it was the belief of the Compensation Committee that these provisions were consistent with executive severance arrangements that are customary for public companies at our stage of development and were necessary in order to hire and/or retain the executives.

Our executive employment agreements and the related severance compensation provisions are designed to meet the following objectives:

- Termination Without Cause or For Good Reason:* If we terminate the employment of Mr. van Walsem, Dr. Peoples or Mr. Findlen "without cause" or the executive resigns for "good reason," each as defined in the applicable agreement, we are obligated to make certain payments based on the executive's then-effective base salary and prior bonuses (or, in the case of Dr. Peoples, his then-effective target bonus). Dr. Kouba's agreement provided for acceleration of vesting of his stock options if his employment was terminated without cause, as defined in the agreement. We believe these severance provisions are appropriate because the terminated executive is bound by confidentiality and non-competition provisions continuing after termination. We also believe it is beneficial to have a mutually-agreed severance package in place prior to any termination event, to avoid disruptive conflicts and provide us with more flexibility to make a change in senior management if such a change is in our and our stockholders' best interests.
- Change in Control:* As part of our normal course of business, we engage in discussions with other companies about possible collaborations, licensing and/or other ways in which the companies may work together to further our respective long-term objectives. In addition, many larger, more established companies consider companies at similar stages of development to ours as potential acquisition targets. In certain scenarios, the potential for merger or being acquired may be in the best interests of our stockholders. We provide a component of severance compensation (i.e., the acceleration of vesting for any options not yet vested) if an executive is terminated as a result of a change of control transaction, to promote the ability of our senior

executives to act in the best interests of our stockholders even though they could be terminated as a result of the transaction.

In connection with the termination of Dr. Barber's employment, we entered into a separation agreement with Dr. Barber, providing for salary continuation at a base salary rate of \$235,000 per year for a period of twelve months, and a lump-sum bonus of \$145,000. The salary continuation and bonus amounts were consistent with the relevant terms of Dr. Barber's employment agreement with the Company, and the Compensation Committee believed that these amounts were reasonable in light of Dr. Barber's years of service to the Company.

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, places a limit of \$1 million on the amount of compensation that the Company may deduct in any one year with respect to the Company's chief executive officer and each of the Company's next three most highly compensated executive officers other than the chief financial officer. Certain performance-based compensation within the meaning of Section 162(m) is not subject to the deduction limit. Until the annual meeting of our stockholders in 2009, or until the 2006 Stock Option and Incentive Plan is materially amended, if earlier, awards granted under that plan will be exempt from the deduction limits of Section 162(m). To maintain flexibility in compensating the chief executive officer and the executive officers in a manner designed to promote varying corporate goals, the Compensation Committee has not adopted a policy that all compensation must be deductible. The Compensation Committee intends to continue to evaluate the effects of the compensation limits of Section 162(m) and to grant compensation awards in the future in a manner consistent with the best interests of the Company and the best interests our stockholders.

Executive Employment Agreements

In June 2007, we entered into an Employment Agreement with Jay Kouba with respect to his services as President and Chief Executive Officer of the Company. The agreement provided for a base salary of \$30,000 per year, an option grant for 83,312 shares, vesting in equal increments of 20,828 shares on each of August 1, 2007, November 1, 2007, February 1, 2008 and May 1, 2008, and an option to purchase up to 20,000 shares of the Company's common stock, vesting upon determination that

Dr. Kouba satisfied his bonus plan. The options will be exercisable, to the extent vested, for ten years after the date of grant. The agreement also provided that if there was a change of control of the Company, all options granted but not yet vested according to the terms of the relevant stock option agreements would immediately vest and be exercisable, subject to reduction if such benefit was deemed a "parachute payment" under Section 280G of the Internal Revenue Code of 1986, as amended. The agreement also provided that if Dr. Kouba's employment was terminated without cause, all options granted but not vested would immediately vest and be exercisable, provided that Dr. Kouba signed and did not revoke a general release in a form acceptable to the Company. Dr. Kouba's employment with the Company ended on March 17, 2008 when Richard P. Eno became the Company's President and Chief Executive Officer.

We have employment agreements with Oliver P. Peoples, our Chief Scientific Officer and Vice President, Research, and Robert C. Findlen, our Vice President, Sales and Marketing. These employment agreements provide that the executive will be eligible to receive annual bonuses under a bonus scheme to be established by the Company, based on individual and Company performance. During 2007, the Compensation Committee established the 2007 executive incentive program, and in March 2008 the Committee revised the program for 2008. See "Compensation Discussion and Analysis" above.

Each such employment agreement provides that in the event of termination of employment for any reason, the executive will be eligible to receive (i) the portion of his base salary that has accrued prior to such termination and has not yet been paid, (ii) an amount equal to the value of any accrued unused vacation days, and (iii) reimbursement for expenses properly incurred by the executive on behalf of the Company prior to such termination.

Pursuant to the terms of the agreement with Mr. Findlen, if the Company terminates the executive's employment without "cause" or if the executive terminates his employment for "good reason" (each, as defined in the agreement), in addition to any accrued obligations, and contingent on the executive's provision of a timely and complete release of claims against the Company, for the period of twelve months following the termination he will be entitled to continuation of his base salary and payment of COBRA premiums. In addition, if the award of a bonus has become customary, the executive will be entitled to a payment equal to the average of the bonuses paid to him in the two years preceding the termination. If the Company terminates the executive's employment without cause or if the executive terminates his employment for "good reason" within the twenty-four month period immediately following, or the two month period immediately prior to, a "change of control" (as defined in the agreement), in addition to any accrued obligations and subject to certain conditions: (i) for a period of twelve months following the termination, the Company will continue the executive's base salary and payment of COBRA premiums, (ii) if the award of a bonus has become customary, the executive will be entitled to a payment equal to the average of the bonuses paid to him in the two years preceding the termination, and (iii) all of the executive's stock options will be accelerated, subject to certain conditions. To the extent the executive would be subject to tax under 4999 of the Code as a result of company payments and benefits, the payments and benefits will be reduced if the reduction would maximize his total after-tax payments.

During 2007 we also had an employment agreement with Johan van Walsem, our former Vice President, Manufacturing, Development and Operations, on substantially the same terms as Mr. Findlen's agreement.

Pursuant to the terms of Dr. Peoples' agreement, if the Company terminates Dr. Peoples' employment without "cause" or if Dr. Peoples terminates his employment for "good reason" (each, as defined in the agreement), he will be entitled to a lump-sum cash payment equal to 24 months' base salary and a pro rata portion of the target bonus for the year in which termination occurs, plus payment of COBRA premiums for 24 months. If the Company terminates Dr. Peoples' employment without cause or if Dr. Peoples terminates his employment for "good reason" within the twenty-four

month period immediately following, or the two month period immediately prior to, a "change of control" (as defined in the agreement), in addition to any accrued obligations, and subject to certain conditions, Dr. Peoples will receive: (i) a lump-sum cash payment equal to two times the sum of his then-current base salary plus 50% of his then-current target bonus, (ii) payment of COBRA premiums for 24 months, and (iii) full vesting of his stock options. To the extent Dr. Peoples would be subject to tax under 4999 of the Code as a result of company payments and benefits, the payments and benefits will be reduced if the reduction would maximize his total after-tax payments.

Each of our named executive officers has signed an employee noncompetition, nondisclosure and inventions agreement. These agreements include a provision prohibiting the executive, during his employment by us and for a period of two years thereafter, from engaging in certain business activities. Dr. Kouba, Dr. Peoples, Mr. Findlen, and Mr. Auchincloss are restricted from business activities which are directly or indirectly in competition with the products or services being developed, manufactured, marketed, distributed, planned, sold or otherwise provided by us or which are in any way directly or indirectly detrimental to our business. Mr. van Walsem and Dr. Barber are restricted from business activities in the field of methods of production, application and use of polyhydroxyalkanoates, their derivatives and other related technology developed by us.

The Company entered into a Separation Agreement with Dr. Barber, the Company's former President and Chief Executive Officer, providing for salary continuation at a base salary rate of \$235,000 per year for a period of twelve months from May 3, 2007, payment of COBRA premiums for twelve months, a lump-sum bonus of \$145,000, and other customary provisions.

On February 20, 2008, we entered into a three-year employment agreement with Richard P. Eno, who became Chief Executive Officer of the Company on March 17, 2008. Under the agreement Mr. Eno will receive a base salary of \$300,000 per year. Mr. Eno will be eligible to receive a performance bonus of up to 150% of his base salary, depending on the Compensation Committee's assessment of achievement of individual and Company goals, with a target of 70% of base salary if performance goals are met. Mr. Eno was granted a stock option for the purchase of 100,000 shares of our Common Stock at the commencement of his employment at an exercise price of \$10.08 per share. Six months after the commencement of his employment Mr. Eno will be granted another option for 50,000 shares. One year after commencement of his employment, if his performance goals are met, Mr. Eno will be granted another stock option for an additional 50,000 shares. Each option will have an exercise price equal to the fair market value per share of the Company's common stock at the date of grant and will vest in equal quarterly installments over a period of four years from the grant date.

If during the term of the agreement Mr. Eno's employment is terminated without cause or he terminates his employment for good reason (as defined in the agreement) Mr. Eno will be entitled to severance of 12 months base salary and payment of COBRA premiums, provided that he signs and does not revoke a general release. If within six months after the expiration of the agreement Mr. Eno's employment is terminated without cause or he terminates his employment for good reason, Mr. Eno will be entitled to severance of six months base salary and payment of COBRA premiums, provided that he signs and does not revoke a general release. The agreement also provides that if Mr. Eno's employment is terminated after a change of control of the Company, then in addition to the severance benefit, the vesting of all unvested equity will be accelerated. Mr. Eno has also entered an Employee Noncompetition, Confidentiality and Inventions Agreement.

On March 21, 2008, the Company entered into a one-year employment agreement with Joseph Hill, who became our Chief Financial Officer on April 8, 2008. Under the agreement Mr. Hill will receive a base salary of \$220,000 per year and a signing bonus of \$20,000. Mr. Hill will be eligible to receive a performance bonus of up to 120% of his base salary, depending on the Compensation Committee's assessment of achievement of individual and Company goals, with a target of 60% of base salary if performance goals are met. Mr. Hill was granted a stock option for the purchase of 50,000 shares of our Common Stock at the commencement of his employment at an exercise price of \$11.75

per share. Six months after the commencement of his employment Mr. Hill will be granted another option for 25,000 shares. Each option will have an exercise price equal to the fair market value per share of the Company's common stock at the date of grant and will vest in equal quarterly installments over a period of four years from the grant date.

If during the term of the agreement Mr. Hill's employment is terminated without cause or he terminates his employment for good reason (as defined in the agreement), Mr. Hill will be entitled to severance of 12 months base salary and payment of COBRA premiums, provided that he signs and does not revoke a general release. Mr. Hill will also be entitled to severance of 12 months base salary and payment of COBRA premiums if the agreement is not renewed by the Company, unless Mr. Hill's employment continues after such expiration. The agreement also provides that if Mr. Hill's employment is terminated after a change of control of the Company, then in addition to the severance benefit, the vesting of all unvested equity will be accelerated. Mr. Hill has also entered the Company's standard Employee Noncompetition, Confidentiality and Inventions Agreement.

DIRECTOR COMPENSATION

Compensation of Directors

Under the Company's policy for compensation of non-employee Directors, each non-employee member of our Board of Directors receives an annual retainer of \$30,000. In addition, each non-employee Director serving as a member but not chair of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee receives an annual retainer of \$5,000, and the chairs of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are entitled to an additional annual retainer of \$15,000, \$10,000 and \$10,000, respectively.

Under the 2006 Stock Option and Incentive Plan, each non-employee Director is granted a fully vested nonqualified stock option to acquire 20,000 shares of stock when first elected to serve as a Director. In addition, after each annual meeting of stockholders each non-employee Director is automatically granted a non-qualified stock option to acquire 10,000 shares of stock, and, beginning in 2008, the non-employee Chairman of the Board will be granted a stock option to acquire an additional 15,000 shares of stock, each of which vests one year after the date of grant. All of these non-employee Director stock options have an exercise price equal to the fair market value of the stock on the date the stock option is granted.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

The charter of the Nominating and Corporate Governance Committee provides that the committee shall conduct an appropriate review of all related party transactions (including those required to be disclosed pursuant to Item 404 of Regulation S-K) for potential conflict of interest situations on an ongoing basis, and the approval of that committee shall be required for all such transactions.

Also, under the Company's Code of Business Conduct and Ethics, any transaction or relationship that reasonably could be expected to give rise to a conflict of interest involving an employee must be reported promptly to the Company's General Counsel, who has been designated as the Company's Compliance Officer. The Compliance Officer may notify the Board of Directors or a committee thereof as he or she deems appropriate. Actual or potential conflicts of interest involving a Director, executive officer or the Compliance Officer must be disclosed directly to the Chairman of the Board of Directors.

All of the transactions set forth below were approved by a majority of the Board of Directors, including a majority of the independent and disinterested members of the Board of Directors. The Company believes that it has executed all of the transactions set forth below on terms no less favorable to us than could have been obtained from unaffiliated third parties.

The Company has employment agreements with Mr. Findlen, Mr. Igoe, and Dr. Peoples, and had an employment agreement with Mr. van Walsem, providing for certain salary, bonus, stock option and severance compensation. During 2007, the Company entered into a separation agreement with Dr. Barber. For more information regarding agreements with the named executive officers, see "Executive Employment Agreements."

The Company has entered into indemnification agreements with each of its executive officers and directors, providing for indemnification against expenses and liabilities reasonably incurred in connection with their service for us on the Company's behalf.

In September 2005, we retained Dr. ChoKyun Rha, the spouse of our director, Dr. Sinskey, to serve as an advisor for the purpose of building and managing business relationships in Asia. In consideration for Dr. Rha's services, on September 20, 2005, the Company granted Dr. Rha a nonqualified stock option to purchase 16,346 shares of its Common Stock, with an exercise price of \$1.65 per share, vesting over a period of four years.

Metabolix has entered into sublicense agreements with Tepha, Inc. ("Tepha"), to sublicense certain technology to Tepha. Certain of our Directors, Mr. Muller, Mr. Giles and Dr. Sinskey serve on the

board of directors of Tephra, and Metabolix owns 648,149 shares of Tephra's Series A redeemable convertible preferred stock. The agreements with Tephra contain provisions for sublicense maintenance fees to be paid to Metabolix upon Tephra achieving certain financing milestones and for product-related milestone payments. Under the agreements, Metabolix will also receive royalties on net sales of licensed products or sublicensing revenues received by Tephra, subject to a minimum payment each year. Metabolix recognized license and royalty revenues of \$157,000 from Tephra for the year ended December 31, 2007. The Company believes that the terms of the agreements with Tephra are no less favorable to us than license agreements that might be entered into with an independent third party.

On July 12, 2006, the Company and ADM Polymer, a wholly-owned subsidiary of Archer Daniels Midland Company ("ADM"), entered into a Commercial Alliance Agreement and related agreements. The purpose of this alliance is to build a commercial manufacturing facility, to market and sell Mirel biobased plastic through Telles, a joint venture company owned equally by each of Metabolix and ADM Polymer, to make arrangements for the financing of the operation, and to allocate distributions of cash flow.

Telles will make up to twelve payments of \$1,575,000 per calendar quarter to the Company to support these activities during ADM's construction of the commercial manufacturing facility. During the year ended December 31, 2007, support payments totaling \$6,300,000 were received by the Company from Telles.

During the construction period of the Commercial Manufacturing Facility all pre-commercial material production expenses incurred by ADM and the Company are shared equally. During the year ended December 31, 2007, ADM reimbursed the Company \$3,629,000. At December 31, 2007 net reimbursements of \$1,094,000 were due from ADM.

Even though Telles is a separate legal entity owned equally by us and ADM Polymer, ADM Polymer will disproportionately fund the activities of the joint venture. In order to track the disproportionate investments ADM has made, a Ledger Account has been established to record the respective investments made by the parties. As of December 31, 2007 the balance of the ADM Ledger Account was \$97,269,000. For a further discussion of our transactions with ADM, see Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) and Note 4 to our 2007 Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2007.
